

ENVIRO Vehicle Wash

- Completely biodegradable, environmentally friendly vehicle wash
 - Phosphate free & contains no caustic soda or solvents which are undesirable from a safety or environmental aspect
 - Formulated with an advanced surfactant called Traffic Film Remover (TFR)
 - TFR works synergistically with standard detergents to cut through dirt, oil & grease
 - Also incorporates a unique surfactant to assist in grease cutting & to promote free rinsing
 - Boosted with corrosion inhibitors & water softening agents for hard water
- Formulation eliminates static build-up on paint work to reduce dirt pick-up
- Highly concentrated for economical but efficient cleaning
 - Ideally suited for cleaning earth moving equipment, mine & road trucks, fleet washing & cars, buses & vans
 - The product to use in areas of high dirt pick-up & where corrosion is a problem
 - Fantastic on metallic paints

Pack sizes: 1 litre, 5 litre, 20 litre, 200 litre , 1000 litre

ENVIRO VEHICLE WASH is effective & economically priced while also being completely biodegradable & environmentally friendly
