

## Bio-enzymatic Foul Odour Digester For Pet Odours

**50 billion bacteria per litre.  
Specially selected to erase stubborn  
odours & stains.**

There are good bacteria and there are bad bacteria. The bad ones can cause sickness and disease while the good ones are instrumental in things like fermenting beer, curing tobacco and processing cheese.

**Odour Eater Cats** contains only good bacteria, in this case they are specially bred bacteria designed to remove stubborn odours and stains using natural bio-enzymatic reactions.

BioEnzymes Odour Eater products offer superb value as they can be diluted to suit your needs.

With every litre containing 50 billion live bacteria our products use a combination of our revolutionary, super strong odour eliminator, and LIVE enzyme producing bacteria in a combined approach to totally remove odours and stains in any area. Simply mix up the amount you need to use and store the remainder for another time. 2 YEAR SHELF LIFE.

### Benefits

#### 50 BILLION ENZYME PRODUCING BACTERIA IN EVERY LITRE

- This astronomical figure is certified to be correct, and is important to you because the thoroughness and speed with which an enzyme producing product digests stains and the cause of odours is directly related to its bacteria count.

# ODOUR EATER CATS

- **A SYNERGISTIC BLEND OF CULTURES** for broad spectrum effectiveness. Not just a single strain as are so many competitive products.
- **PEOPLE SAFE** - Acts by liquefying and digesting organic stains and odours by enzymatic action. The only by-products produced in the process are carbon dioxide, water and additional safe bacteria.
- **ENVIRONMENTALLY SAFE** - Bacteria that have multiplied during the use of **Odour Eater Cats** are a help in waterways and water treatment facilities because they help seed the natural biodegradation of water borne waste.
- **SAFE ON CONTACT SURFACES** - There's no heat generated to cause leaking pipes. No solvents to dissolve the backing of carpets or to craze plastics. No acids to etch floors or the grouting around the toilets and urinals.
- **LONG SHELF LIFE** - The bacteria in **Odour Eater Cats** are in the form of spores with a protective shell that keeps them dormant until the product is removed from the container and contacts organic matter.

**Professional Grade  
Odour Control**

# Odour Eater Cats Bio-enzymatic Foul Odour Digester

**Odour Eater Cats** is a synergistic blend of specialized strains of live, safe-to-use bacteria chosen for their ability to eat the organic matter that causes odours and stains.

## Uses

Digests foul odours and stains caused by cat and dog urine, vomit, blood and food spills etc.  
Removes body oils and rub marks on furniture.  
Use In animal pens, cages and runways.

## Directions

**TO DIGEST FOUL, VERY STRONG ODORS AND STAINS**  
Dilute **Odour Eater Cats** 1:1 with water and use to clean contaminated area. While the surface is still wet, spray with full strength **Odour Eater Cats** & cover with plastic or a damp towel for 12 -24 hours.  
Continue using daily if required until odors are digested.

**TO DIGEST ODORS IN CARPETS & UPHOLSTERY**  
Dilute **Odour Eater Cats** at the recommended rate. Test fibers for colorfastness. If colorfast, use solution to clean soiled area. After cleaning, spray with full strength **Odour Eater Cats**. Rinse with water and then blot up or pick up with wet vac.
