

# Odour Eater Dogs

Bio-enzymatic Foul Odour Digester For  
 Pet Odours with a fresh Citrus Scent

## Product Overview

**50 billion bacteria per litre. Specially selected to erase stubborn odours & stains.**

There are good bacteria and there are bad bacteria. The bad ones can cause sickness and disease while the good ones are instrumental in things like fermenting beer, curing tobacco and processing cheese.

**Odour Eater Dogs** contains only good bacteria, in this case they are specially bred bacteria designed to remove stubborn odours and stains using natural bio-enzymatic reactions.

BioEnzymes Odour Eater products offer superb value as they can be diluted to suit your needs.

With every litre containing 50 billion live bacteria our products use a combination of our revolutionary, super strong odour eliminator, and LIVE enzyme producing bacteria in a combined approach to totally remove odours and stains in any area. Simply mix up the amount you need to use and store the remainder for another time.

**2 YEAR SHELF LIFE.**

## Benefits

**50 BILLION ENZYME PRODUCING BACTERIA IN EVERY LITRE** - This astronomical figure is certified to be correct, and is important to you because the thoroughness and speed with which an enzyme producing product digests stains and the cause of odours is directly related to its bacteria count.

**A SYNERGISTIC BLEND OF CULTURES** - for broad spectrum effectiveness. Not just a single strain as are so many competitive products.

**PEOPLE SAFE** - Acts by liquefying and digesting organic stains and odours by enzymatic action. The only by products produced in the process are carbon dioxide, water and additional safe bacteria.

**ENVIRONMENTALLY SAFE** - Bacteria that have multiplied during the use of Odour Eater Cats are a help in waterways and water treatment facilities because they help seed the natural biodegradation of water borne waste.

**SAFE ON CONTACT SURFACES** - There's no heat generated to cause leaking pipes. No solvents to dissolve the backing of carpets or to craze plastics. No acids to etch floors or the grouting around the toilets and urinals.

**LONG SHELF LIFE** - The bacteria in Odour Eater Cats are in the form of spores with a protective shell that keeps them dormant until the product is removed from the container and contacts organic matter.

**Odour Eater Dogs** is a synergistic blend of specialized strains of live, safe-to-use bacteria chosen for their ability to eat the organic matter that causes odours and stains.

## Uses

Digests foul odours and stains caused by cat and dog urine, vomit, blood and food spills etc. Removes body oils and rub marks on furniture.

Use In animal pens, cages and runways.

Fantastic on artificial grass !

## Directions

Shake Well

To use Odour Eater Dogs as you would a general purpose cleaner dilute 40ml Odour Eater Dogs with 400ml to 500ml water.

Use a mop, cloth or trigger sprayer.

Clean area do not rinse unless on kitchen bench tops.

For very strong odours mix 50ml Odour Eater Dogs with 100ml warm water, apply daily until stains & odours are digested.

Thereafter application is generally needed every few days or weekly.

To remove very strong odours & stains from floors, carpets, upholstery & fabrics apply a small amount of full strength Odour Eater Dogs to an inconspicuous spot to test for colour fastness.

If area is colour fast, dilute Odour Eater Dogs as above.

Apply until area is saturated, cover with a damp cloth or plastic to retard drying.

Keep the area covered and moist for at least 24 hours to allow the bacteria to get going.

Temperatures below 15c may take longer.
